NO NEW CASES REPORTED.

The Situation in the City of New Orleans.

LOW TEMPERATURE PREVAILS.

Dr. Holt Summoned to Explain Negligence in Reporting Nine Cases by Mail Instead of by Telephone.

By Wire to THE TELEGRAM.

NEW ORLEANS, Sept. 21.—It is believed that the yellow fever situation here is improved, notwithstanding the appearance of eighteen new cases reported yesterday, by the materially lower temperature.

Of the cases reported yesterday at least nine may be properly accorded to Friday, Saturday and Sunday. Only one of these cases is considered serious, that one being an unacclimated stranger. No new cases are reported this morning.

Dr. Joseph Holt, formerly president of the Louisiana board of health, has been summoned to appear before the board to explain the negligence in reporting nine cases by mail instead of by telephone or telegraph.

REPORTS DISCREDITED.

Expert Aeronaut Says Balloon Could Have Floated Only 12 Days.

By Cable to THE TELEGRAM.

ST. PETERSBURG, Russia, Sept. 21.—The reports current to the effect that Andree's balloon has been seen in the interior of Siberia are not believed here. Captain Kovanks, the leading aeronautic expert of Russia, entirely discredits such rumors. He asserts that if Andree ever returns it will not be in mid air, as the balloon could not have kept up beyond twelve days at most.

CLOSING THE EVIDENCE.

The Defense Will Call in Experts to Testify in the Luetgert Case.

CHICAGO, Sept. 20.—The closing direct evidence of the prosecution in the Luetgert case will be submitted tomorrow morning. If Judge Tuthill rules out the evidence of Frank Bialk and Frank Odorfski, State's Attorney Denan will call Mrs. Johnson Miller to the stand, to tell of the threats she heard made, and the pursuit of Mrs. Luetgert she once witnessed by the man on trial, who was (Mrs. Miller will say) armed with a revolver. But the state's attorney and his assistant, McEwan, are of the opinion that Judge Tuthill will not rule out the motive evidence. This will detail Luetgert's relations with other women, notably Mary Simmering, the servant girl, to whose presence in the house Mrs. Luetgert strongly objected. The prosecution will try to establish the fact that it was a desire to marry Mary Simmering or some other woman with whom he was infatuated that led Luetgert to murder his wife.

Dr. Rudolph Oppenheimer, of Hammond, Ill., is to be called as an expert witness by the defense. He has expressed the opinion that the bones exhibited by the prosecution were procured and placed in the vat by enemies of Luetgert for the purpose of convicting him.

Half a dozen other experts will be called among them Dr. Sanderson Chritison, the expert on criminology. It was also stated today that an effort would be made to prove an alibie for Luetgert. The defense will produce at least two witnesses to state the case and at least a week will be consumed in argument of counsel.

State's Attorney Deenan today asked the county board to appropriate $2,500 to help carry on the trial. Expert witnesses, Mr. Deenan finds, will not work for love or glory, and besides he says there are several persons he desires to bring here from New York to testify for the State. Just who these new witnesses are the State's attorney declines to reveal now, his first purpose being to get the money to pay the expenses.

New Turkish Minister.

According to a press report from Constantinople it is Ferrouh Bey, councillor of the Turkish ambassy at St. Petersburg, and not Refaat Bey, councillor of the Turkish ambassy at London, who is to succeed Moustapha Tachsin Bey as Turkish minister to the United States, retired. Moustapha Bey was in New York at last accounts. The Turkish legation here is closed.

The Wilmington to Be Fitted Out.

Orders have been given for fitting out the gunboat Wilmington at the Norfolk navy yard for three years' service on the South Atlantic station, which includes the eastern coast of South America and part of the western coast of Africa. She takes the place of the Lancaster, now on her way home.

POINTS FROM HIGH POINT.

Personal and Local Affairs Briefly Mentioned.

TELEGRAM BUREAU,
HIGH POINT, N. C., Sept. 21, '97.

The meetings which have been in progress at the warehouse, conducted by Evangelist Fife, closed yesterday at the morning service. Mr. Fife and his associates have caused considerable excitement and comment about the new doctrines and theories they are advancing. The divine healing was not repeated last Sunday as was expected, but Rev. Mr. Miller addressed the audience upon the "Second Coming of Christ." The Monday morning services were also conducted by him. His subject was "The Signs of the Times." He said that every prophesy laid down in the Bible was being fulfilled, and that it was clear to him that the end was near. Mr. Fife left Monday night for Thomasville, but Mr. Miller will remain here for several days, preaching on this subject.

The graded school opened yesterday with 435 enrolled.

The machinery for the stamp mill at the Ferabee gold mine, near here, has arrived and will be placed in position at once.

Messrs. Chas. M. Steadman and W. P. Ragan are here today.

W. T. Parker, of Archdale, was here a short while this morning.

B. W. Sweet, of Knoxville, Tenn., is at the Bellevue. He will superintend the Ferabee gold mine.

The cold wave from the Klondyke region struck our city today.

TRINITY COLLEGE NOTES.

Dr. Kilgo Preaches—Y. M. C. A. Sunday Service.

TRINITY COLLEGE, Sept. 20.—Sunday morning Dr. Kilgo preached the opening sermon to the students of the college. Main street church was well filled by an appreciative audience. Dr. Kilgo's text was taken from John 6:68, and from this he showed the dominion and rulership to be attained from the Christ life in a very clear and forcible manner.

Bible study was the theme presented at the Y. M. C. A. Sunday afternoon. Bible classes are conducted under the auspices of the Y. M. C. A. and are voluntarily taken by students who desire to do so. The present indications are that many will take advantage of these opportunities.

Inter-collegiate football is prohibited at Trinity, but games between the different classes are being arranged, and the college championship contest will begin soon.

R. Z. Linney, Jr., a former Trinity student, spent a few days on the campus last week, on his way to Baltimore to study medicine.

HALF A MILLION FOR GUNS.

Appropriation to Be Recommended By Captain O'Neil.

Capt. O'Neill, chief of ordnance, Navy Department, will recommend in his annual report to the Secretary of the Navy that Congress be urged to make an appropriation of at leat $500,000 for the manufacture of modern high-power guns foruse on auxiliary cruisers in time of war. In the opinion of Capt. O'Neill, this sum is not too large to be authorized at one time.

It is estimated that $3,000,000 will be required to fully equip with modern batteries the twenty-eight steamers now enrolled in the government service as auxiliary cruisers.

A Steamship's Antics.

NEW YORK, Sept. 21.—Coasting steamship Oneida arrived from southern ports this morning. While at the pier at foot of Dover street, she tipped over on her port side. Cargo shifted, nobody hurt.

TO RECALL GENERAL WEYLER.

The Liberals Oppose Demands of Uncle Sam.

A GRAVE SITUATION IN SPAIN.

Spanish Dissidents Will Force a Cabinet Crisis if Weyler Remains in Cuba—Trouble for Azcarroga.

By Cable to THE TELEGRAM.

MADRID, Sept. 21.—Senor Silveta, the leader of the Dissident Conservatives in the Cortes, openly declares that the Dissidents will not co-operate with the government of Premier Azcarroga unless General Weyler is rescued from Cuba. He further says that the situation in Spain is of the very gravest character just at present. He is of the opinion that the only key to the situation is a modification of the cabinet by the retirement of the Duke of Tetuan, minister of Foreign Affairs, and others of the present ministry and the creation of a new government that will be capable of dealing with the difficulties thrown in the way by the opposition.

Silveta says also that he and his followers will, together with the liberals, join in supporting the rejection of the new demands of the United States as communicated to the Duke of Tetuan by Minister Woodford at the recent conference.

BLIND INFATUATION OF SPAIN.

A Belgian Opinion on the Attitude of the United States.

By Cable to THE TELEGRAM.

BRUSSELS, Sept. 21.—The Independence Belge in an article commenting on the reported representations to the Spanish government by Minister Woodford recognizes the right of the American government to intervene and assist Spain to hasten the pacification of the island of Cuba. The paper adds. "They cannot consent that the struggle be prolonged indefinitely through the blind infatuation of Spanish statesmen."

EXAMINED IN JERSEY CITY.

Pennsylvania Railway Employes Must Have Health Certificates.

By Wire to THE TELEGRAM.

JERSEY CITY, N. J., Sept. 21.—Twenty-one conductors and train hands on the Pennsylvania railroad were examined today by Dr. Atkinson of the Jersey City board of health, and were given health certificates.

The men are all running through Alabama and the board of health of that State requires them to have health certificates before entering the State to prevent the introduction of yellow fever contagion.

ATTORNEY GENERAL'S DECISION

On "Section 22" of Tariff Law to be Made Public.

By Wire to THE TELEGRAM.

WASHINGTON, Sept. 21.—It was announced this morning that Attorney General McKenna's decision on "Section 22" of the tariff law would be given to the public after the cabinet meeting today.

Friends of the Western Continental railway, who have been watching the matter closely, are greatly discouraged and think the decision will be against them.

SPAIN AFTER A NEW LOAN.

Duties on Goods to Be the Guarantee of Payment.

By Cable to THE TELEGRAM.

LONDON, Sept. 21.—The Spanish government is attempting to negotiate another loan for the purpose of constructing new naval works. Duties upon goods entering and leaving Spanish ports are being offered as a guarantee of payment.

The American Reaching Out.

By Wire to THE TELEGRAM.

ST. JOSEPH, MO., Sept. 21—It is reported here that the American Tobacco company has purchased the mammoth tobacco business of Liggett & Myers, of St. Louis. The authorities here believe the rumor.

Almost Reached The Freezing Point.

By Wire to the THE TELEGRAM.

LEXINGTON, Ky., Sept. 21.—There was a heavy frost over central Kentucky this morning. The temperature was thirty-five degrees. Great damage was done tobacco and there was some injury to corn.

Steel Plant Resumes.

BELLAIRE, O., Sept. 20.—After a two months' shut down and an expensive strike of $500,000, the furnaces of the steel plant and plate mill of the Bellaire steel company started up today, giving employment to 500 men.

NOT AN ULTIMATUM.

Misapprehension of Woodford's Intimations to Spain.

In reference to the report current in Europe that Minister Woodford had presented an ultimatum to the Spanish government, the following has been given out by the administration:

WASHINGTON, Sept. 20.—It can be stated, in reference to the Parish publication, purporting to give the substance of General Woodford's communication to the Duke of Tetuan, that there has been a misapprehension on several important points, notably in respect to an ultimatum, and the setting of a time limit for the conclusion of the war. Instead of setting the end of October next as the date for the termination of the war, that date was mentioned as the time when the Spanish court would return to Madrid from San Sebastian, and when, consequently, it might be in order to return answer to the latest representations of the United States government through Minister Woodford.

It is declared at the State Department that while Minister Woodford did, in accordance with the original idea of his instructions, set out the deep interest the United States had in witnessing a cessation of the deplorable contest in Cuba, he did not deliver himself of an ultimatum, but simply made a statement of our deep interest in a settlement of the Cuban war, as a reasonable explanation for intervening in any manner at this time. Mr. Woodford's telegram regarding conference with the Duke of Tetuan is now before President McKinley.

A New Batch of Appointments.

By Wire to THE TELEGRAM.

WASHINGTON, D. C., Sept. 21.—The President today made the following appointments: Francis H. Wilson to be postmaster at Brooklyn, New York; Benjamin F. Portlett, collector of internal revenue for Maryland; William K. Herzog, of Illinois, consul to Zittman Germany; Albert M. Lea, attorney for southern district of Mississippi, Frank W. Collins, marshall for the southern district of Mississippi.

ATLANTA'S EXAMPLE.

The course of Atlanta in opening her doors to yellow fever refugees is altogether commendable. There might be differences of opinion as to the wisdom of such a course, but none as to the warm, sympathetic humanity of it. She has made a reputation in the business world as being the first of southern cities, and now she follows that up by establishing her right to be regarded as the most hospitable and charitable. While it is true that her altitude protects her from the epidemic, it was easily foreseen that more vulnerable cities would quarantine against her, as they have done, and her loss in a business way would be enormous in consequence, but despite all that, she has received the refugees with open arms.

No blame, of course, attaches to any city that quarantined against districts where yellow fever was known to exist; not to have done so, if they were within the yellow fever altitude, would have been very foolish; but the unselfish manner in which Atlanta has sacrificed her commercial interests, for the time, to the higher interest of humanity will endear her to the hearts of all who appreciate a generous forgetfulness.

SOME sweet day the good people of North Carolina are going to ask the troublesome question why the penitentiary which was more than self-sustaining under the old administration is falling behind under the administration that came in with the slogan "retrenchment and reform." There is the pleasant alternative of admitting either incompetence on the part of the present management or venality. If the State prison could be made a source of revenue by one administration, why should it be made a drain on the treasury by the next? There has been a surplus of cheap promises and an immense deficit in their redemption. An overplus of good intentions may be alright but in the business of the State there are a few other things needful; some small conception of how the good intentions may be practically carried out for example.

IT IS all very well for Governor Lowndes to appeal to all good citizens to come and assist in lifting the scalp of Senator Gorman, but it is also well to remember that the scalps of many good citizens, who have previously tried conclusions with him, are drying on the walls of the Maryland chief's wigwam. The Senator is a connoiseur in scalps and would not be averse to adding a few more choice specimens, that of Governor Lowndes, for instance, to his collection.

GREECE might reasonably have fancied she was in hard luck when a Turkish army was in possession of her territory but when that commission of European financiers swoop down on her she will realize that the frying pan was only comfortably warm as compared with the place she jumped into.

IT is barely possible that the occupant of the Governor's Mansion, down at Raleigh, has designs upon the old adage "Still water runs deep."

MR. W. I. UNDERWOOD, who has been city editor of THE TELEGRAM up to the present time, has severed his connection with the paper, having in mind an independent venture. Mr. Underwood is a good localizer and a worthy young man personally, and the best wishes of THE TELEGRAM will follow him in his new undertaking. Mr. R. M. Phillips will hereafter do the local work for this paper.

ANOTHER Balaklava survivor has come to the surface in Canada. If tally had been kept of all the survivors of the "wild charge they made" the remnants of the "noble six hundred" would now outnumber the Grand Army of the Republic—or even the list of those "receiving injuries in battle."

WHEN a New York quill driver runs short of live topics for home consumption he jumps on Charles A. Dana. He is an inexhaustible subject, whichever way you take him.

HIS Excellency, the Governor of Virginia, will probably be less addicted to open letters by the time he emerges from the controversy with Senator Daniel.

LEUTGERT is doubtless convinced by this that when it comes to grinding exceeding small the sausage mill is only a poor second to the legal mill.

IF MR. DEBS, mouth would only go on a strike for shorter hours there would be no lack of sympathetic contributions to sustain it in that course.

WITH the falling of the autumn leaves "that little bill" for watermelons and ice-cream is worrying the penitentiary management.

MARCUS A. HANNA is stumping Ohio at present and according to the stenographers his grammar is like his coal—decidedly rocky.

WHO knows but that the yellow fever bacillus is only a harmless little germ with the gold craze?

The Grandest Remedy.

Mr. R. B. Greeve, merchant, of Chilhowie, Va., certifies that he had consumption, was given up to die, sought all medical treatment that money could procure, tried all cough remedies he could hear of, but got no relief; spent many nights sitting up in a chair; was induced to try Dr. King's New Discovery, and was cured by use of two bottles. For past three years has been attending to business, and says Dr. King's New Discovery is the grandest remedy ever made, as it has done so much for him and also for others in his community. Dr. King's New Discovery is guaranteed for coughs, colds and consumption. It don't fail. Trial bottles free at C. E. Holton's drug store.

Mr. D. W. Lindley, whose farm is on the highest point of Hickory Mountain, has a cotton patch with the tallest stalks that we have yet heard of. He measured, one of them and it was eight feet eight inches tall and at last accounts was growing an inch a day.—Chatham Record.

Farmers from all sections of the country, except, Ansonville, Burnsville and Lanesboro, township, report the cotton crop off at least 25 per cent since the first day of August. In the latter part of March, 1896, Rosa Lee Moss, a little colored girl of Oxford about six years old, was thrown under the train while in motion and both her feet were terribly mashed. Both feet required amputation and the mother of the child brought suit for her against the Southern Railroad Company for $10,000. The case came up for trial at Graham last week and after a hearing of the case for two days the jury rendered a verdict in behalf of the child for $5,000.

In a letter dated the 18th, Surgeon General John H. Williams, of the State Guard, at Asheville, writes the Governor: "If it meets with your approval I should be pleased to telegraph Surgeon General Wyman, offering the mountain plateau of Western North Carolina as a refuge for refugees from the yellow fever stricken district." Governor Russell is considering the matter. His objection is that a lot of destitute people might come in and that then the state might have to feed some and pay their expenses to their homes after the epidemic.

Dick Bridgers, colored, was arrested at Durham yesterday morning upon a warrant issued by a justice of the peace at Raleigh. The charge against him is housebreaking. He was taken to Raleigh on the 2:30 train this morning. When arrested he had on his person a large number of keys, showing that he is prepared to enter almost any house. Recently a number of houses in and around Durham have been entered, and while as yet there is no evidence to convict Bridgers of these offenses it is believed that he is the man that has been doing the work.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervogs system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the liver and kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it, Sold for 50c or $1.00 per bottle at C. E. A Difficult Lament.

"The melancholy days have come,"
Ye poets, drop a tear.
Once more your lutes in minor strum
And sing of autumn drear.
But as the leaves forsake the trees
In sadness so intense,
We hail with sweet relief the breeze
That comes to blow them hence.
O'er places that are "bare and brown"
'Tis proper to lament.
Yet, to efface the gloomy frown
A sense of sweet content
Steals through us. No hot wave annoys,
Mosquitoes hush their lays—
In fact, there's nothing one enjoys
"Like melancholy days."
—Washington Star.

Was Never a Gold Bug.

DENVER, Col., Sept. 20.—John A. Gordon, of Trinidad, Democratic nominee for judge of the Supreme Court of Colorado, in his letter of acceptance, addressed to the Democratic State Central committee, refutes the charges that he was at any time a gold standard man. Many Think!

When it was said to the woman: "In sorrow shalt thou bring forth children," that a perpetual curse was pronounced, but the thrill of joy felt by every Mother when she clasps to her heart her babe proves the contrary. True, dangers lurk in the pathway of the Expectant Mother and should be avoided.

"Mother's Friend"

So prepares the system for the change taking place that the final hour is robbed of all danger and pain. Its use insures safety to the life of both Mother and child, and makes childbirth easy and recovery more rapid.

THEY KNEW IT WAS COMING.

Two Barefooted Boys Prepared for the Cold Wave.

The way of the transgressor is hard. The papers say that a man was lynched by his comrades for stealing a piece of bacon from a fellow-camper somewhere on the trail to the gold helds of Alaska the other day. Hunger was pinching the man, and he was forced to steal or perish. He was strung up, summarily, as a "horrible example." But the subjects of this item fared better than that.

This morning Policeman Weatherly arrested two small negro boys, who were wanted in Reidsville for stealing patent leather shoes from a repair shop there. The shoes were recovered, and an officer left on the morning train with the prisoners and the stolen property.

They are very small fellows, and do not appear to be over twelve or fifteen years of age. They perhaps knew the cold wave was coming, and thought patent leathers would be just the thing to protect their feet from the cold September storm, which is evidently close upon us.

It might be well for all such criminals to realize that Greensboro is not a very safe retreat for persons with stolen goods, no matter how seasonable or useful the articles may be.

Last Night's Show at West's Park.

Dr. Blue Mountain Joe & Co., opened their engagement in Greensboro last night a very large audience among whom was quite a number of ladies. A very pleasing program was presented, consisting of songs; dances, funny comedies, &c. The music rendered by the efficient orchestra under the direction of Prof. Wm. Blakeny was of a high order and was a very pleasing adjunct. These entertainments will be given nightly. Everything presented at last nights show was clean and refined, and judging from the laughter and applause given every one was highly pleased. The Doctor can be cansulted free at his office on Main st., from 9 a.m. to 4 p.m.

These entertainments are first-class in every respect, and strictly moral in every sense of the word. Not a vulgar word being spoken that could offend the most modest person in the world. The troupe made a good impression last night and no doubt will be largely attended during their stay in Greensboro.

Horse, Wagon and Whiskey Sold.

Deputy Collector Brim today sold the horse, wagon, harness and whisky which were seized near Belews Creek a few weeks ago. The wagon, with animal and harness, brought only $10. Will Sprinkle was the purchaser. The barrel of whiskey brought $1.11 per gallon. It was bought by J. H. Sprinkle. The horse did not bring enough to pay for its food at the livery stable during the past forty days. The gun was sold for $3.05.

It will be remembered that the horse was stolen from Smoak & McCreary's stable a few nights after the capture was made, but it was found a day or two afterward.—Winston Sentinel.

R. S. Stannard, of this city, manager of the North Carolina Freight Association, is in Raleigh. He was yesterday given permission to examine the files of the railroad commission in order to ascertain if their is discrimination in freight rates particularly on cotton. The investigation of rates came up before the commission today.

The revival meetings, which have been in progress for some days at the Methodist Protestant church closed last night. Rev. Mr. Johnson, who has been doing affective preaching during the meeting, preached the closing sermon and there were three or four more conversions. It has been a season well enjoyed by those whose good fortune it was to attend the meetings.

Accidently Killed.

A special from Wilson to the News and Observer dated yesterday says: "The man who was run over by the Southern freight, No. 72, at Elm City, Saturday evening, is dead. He was a white man by the name of Underwood, and came here from Fayetteville. He was attempting to jump the train for the purpose of stealing a ride, when he fell under the train, his body in the center of the track and both legs across the rail. Both legs were run over and mangled fearfully. Dr. E. G. Moore, of Elm City, and Dr. Albert Anderson, of Wilson, amputated the limbs, but the shock was so great that the man died shortly after the operation was completed.
